

# End-of-Course Tutoring Session for Geometry

**Saturday, November 3<sup>rd</sup>, 2018**

**Location: Magnet Building**

Dear Parents/Guardians,

The Georgia End of Course exams for Geometry will be given during the week of December 3<sup>rd</sup>. The math department has been working very hard to ensure that all of our students know and can apply the state standards with proficiency.

The Geometry teachers are offering a tutoring session on Saturday, November 3<sup>rd</sup> from 9:00 a.m. - 12:00 p.m. We will not provide food. The session will start promptly at 9:00 a.m. and will end at noon.

Tutoring will be held in the Magnet building, and students should enter at the Roberta Circle entrance. The teachers will provide the tutoring locations.

We as a math department ask that the students sign up for the session with their teacher, so that the department can plan accordingly.

Thank you!

Andrea Farmer

SCHS Math Department Chair
